Subj: INITIAL ASSESSMENT STUDY (IAS), NAVAL STATION (NAVSTA), MAYPORT, FL

Dear Mr. Linton:

This office has received the comments provided by your 23 September 1986 letter 4PM-EA/JLH concerning the IAS at NAVSTA Mayport. As with previous naval activities within the southeast region, this office will be continuing work under the Naval Assessment and Control of Installation Pollutants (NACIP) Program for Mayport.

We have retained the services of E.C. Jordan Co., Tallahassee, FL to conduct the Confirmation phase of work. A Work Plan for the Verification Step of the Confirmation phase is currently being prepared and will take into consideration your recommendations. As in the past, we will send a draft to your office for review with a follow-up meeting attended by both federal and state agencies to discuss the course of action.

Mr. Barry Lester is the engineer-in-charge for this study and may be reached at (803) 743-5510.

Sincerely,

D. R. SPELL, P.E.
Head, Environmental Branch
